

Stylish jewelry for summer

Jewelry adds a touch of color and smart style which makes summer dresses much more attractive and the wearer more winsome. The most fashionable ornaments are pendants, necklaces, brooches and rings. You will find the display at Clinton's charming.

In pendants and brooches set with pearls and colored stones, there are many pretty designs and combinations—very latest styles. One could not select a better birthday present.

- Pendants
- Brooches
- Necklaces
- Set rings
- Lingerie clasps
- Circle pins
- Beauty pins

Just received another large shipment of feather weight voile smocks. Just the thing for hot weather wear. All sizes, and made in either plain white or trimmed; also pink, maize, copen and tan. BLOCK'S.

THAT WIRE OF COMFORT. CLEANLINESS AND COMFORT

The wonder is that we have come to take their presence for granted—these little electric light wires which have raised the whole standard of living in the American home. A generation ago who ever dreamed that we could have brilliant light at any hour of the day or night by a touch of the push-button—light without oxygen-consuming flames or dangerous matches.

Electric fans, electric table appliances, electrically driven washing machines and mangles, electric flat irons, electric curling irons, electric vacuum cleaners—all followed the installation of the electric lighting wire and became the housewife's tireless and immaculate servants.

An now comes FRIDGER to take the place of the dirt-tracking ice man and the insanitary icebox with its dripping burden. Spoiled edibles, sometimes causing food poisoning—become things of the past the minute FRIDGER—the Electric Ice and Refrigerating Man—enters the home.

Think of it—ICE AND REFRIGERATION BY WIRE, ice and Refrigeration by the cleanest, most dependable service you have in your home—the electric wire's—instead of the dirtiest and least dependable—the ice man's.

FRIDGER cannot help being always dry, cold and antiseptically "sweet." Contrast this with the daily annoyance of the ice man's visits and the ooze of melting ice requiring constant and exacting attention in trying to keep your icebox in even an approximate state of cleanliness and sanitation.

Besides, FRIDGER is really beautiful, as it is white enameled inside and out, and being dry there is nothing to flush and scour or to give off odors. In FRIDGER'S extra-cold compartment you can freeze your favorite drinking water into cubes of ice for table use and for fancy beverages. FRIDGER is as conveniently portable as a Victrola, and he is so adaptable to service and location that in many homes he must necessarily be considered as important a feature of the nursery and pantry as of the kitchen.

FRIDGER is Simplicity Itself. FRIDGER performs a wonderful service and is about as simple as his first cousin, the electric fan, the vacuum cleaner and the electric iron. FRIDGER is installed the same way—by attaching the electric cord to the nearest socket. Nothing more.

He need never be turned off or on as he does this himself unflinchingly as often as necessary to keep the food compartment at the temperature required for the healthful preservation of your food day and night, winter and summer. You will have nothing to do but enjoy him.

This FRIDGER can be seen at the W. R. Maloney hardware store and its mode of operation will be explained by the representatives in charge. (ADV.)

Pass Rooming House Ordinance.

A new ordinance relating to hotels and rooming houses was passed by the city council Tuesday evening. It provides that hotels and rooming houses shall maintain a register upon which shall be registered the name of each guest, the time of his or her arrival, the time of departure, the number of the room occupied and the nature of baggage. A rooming house or hotel is defined as a place open to the public where food is furnished or sleeping accommodations furnished to transient guests and where five or more rooms are used for the accommodation of such guests. The ordinance creates a hotel and rooming house board which consists of the mayor, chief of police and chairman of the welfare board with power to make such rules as shall be necessary for the proper regulation of hotels and rooming houses. A penalty of from \$5.00 to \$100 is attached for violation of the ordinance.

Result of No Accident Week.

The Director General of Railroads has received a report from Hale Holden, Regional Director of the Central Western Region, to the effect that the No-Accident-Week campaign conducted in that region the last week in June resulted as follows:

With 55,000 miles of railroads and approximately 327,000 employees in varied climates—mountain, plains and varied climates, mountains, plains and 4 fatalities, compared with 447 injured and 9 fatalities during the same period in 1918, or a total decrease of 356 casualties or 79 per cent during No-Accident-Week.

Estimate of Expenses.

The estimate of expenses as made by the mayor and council for the fiscal year beginning the first week in August, 1919, totals \$82,300. It does not, however, necessarily follow that this entire amount will be expended, but the expenses must not exceed this amount. The one big item in the estimate is \$24,000 for the water fund, this being swelled by the anticipation of needed extensions during the next fiscal year.

Hot weather house and porch dresses, cool and dainty, now on sale from 98c up at BLOCK'S.

Vivian Martin IN "LITTLE COMRADE"

A story of farmerettes who found that silk overalls weren't practical in digging the potato patch.

PARSONS COMEDY.

Keith, Saturday.

The New Hotel Palace and Cafe

Is now Open for the Accommodation of the Public.

While a few of our fixtures are still lacking we are able to take care of the public both as to rooms and dining room and lunch counter service. All rooms are equipped with running hot and cold water and a number of the rooms have private baths attached. All rooms are neatly and attractively furnished, thus giving to our patrons the maximum of comfort. In our dining room and at the lunch counter the best the market affords is served, and throughout our service is second to none.

Upon the arrival and installation of the delayed fixtures we will have a public opening and will be pleased to show the public one of the best appointed hotels and cafes in the state.

HELP YOURSELF

Good roads, good schools and churches, good stores are the backbone of every prosperous community.

Every citizen who does not take a personal interest in these institutions is standing in his own light.

Individual prosperity is closely linked with the community's prosperity. Every boost for home institutions is a boost for yourself.
